In every field of human endeavor,  
buffs, book club joiners and so on .

retreat from reality climaxed in prophecy

and a recording of a hyena's howl played backwards.

And

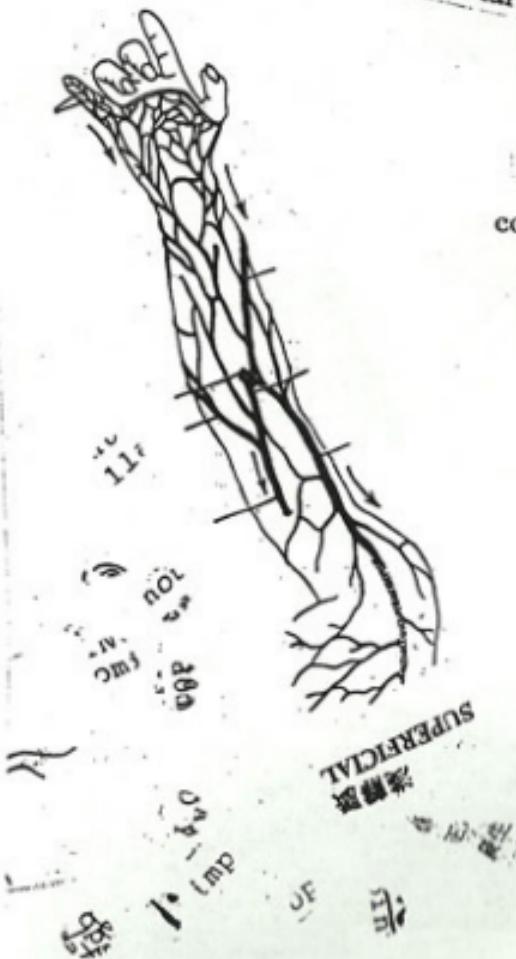

when the real world often seemed to be no fun at all  
archvillains and swimming pools perpetually live in the white light

of gangster-ridden galaxies in the far reaches of outer space.

I shall order the men to

commit them to the intergalactic  
conglomeration of technological

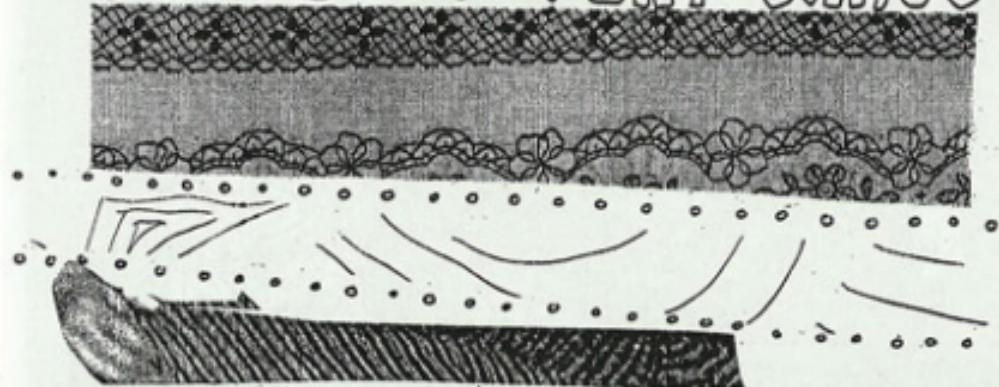

Bulgarian buttermilk.

MEANINGLESSNESS  
AS  
PURE  
BEING.

Victor  
Nov. 9, 1982

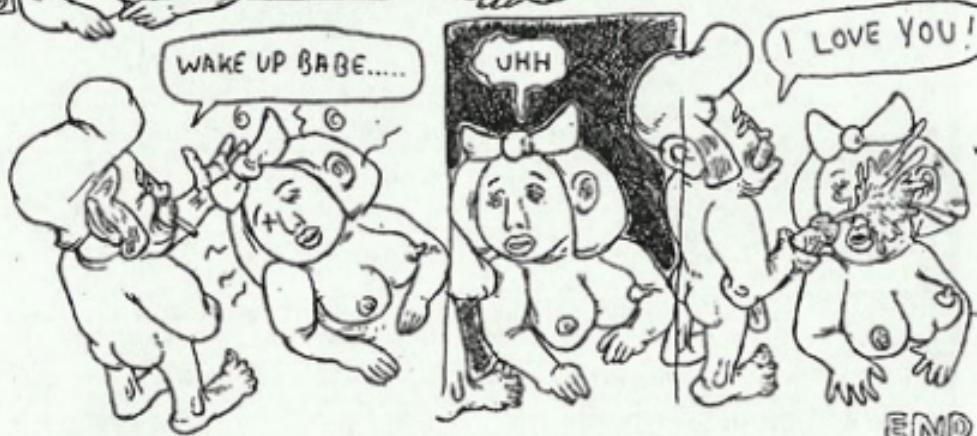

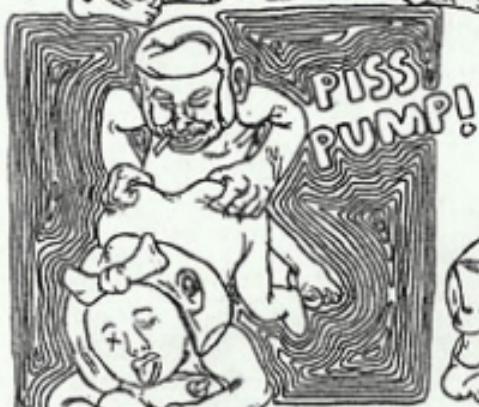

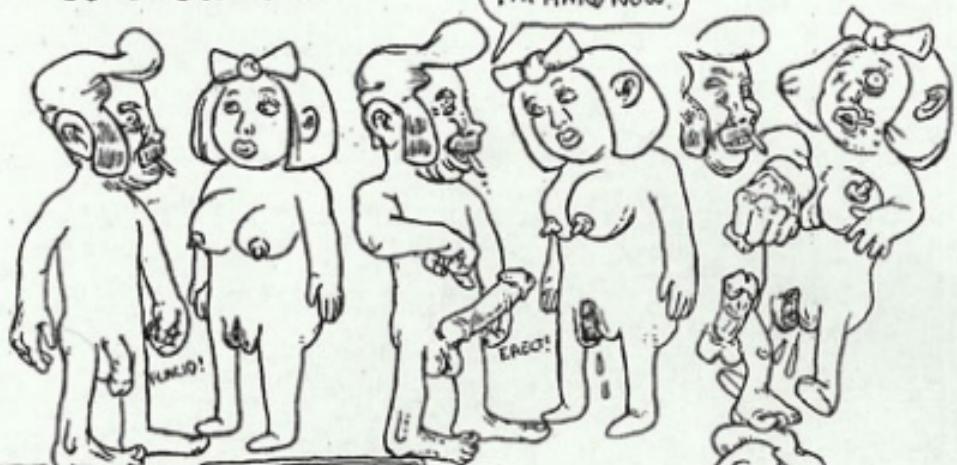

There is more than one way to beat a bee sting. To beat a bee sting you have to take out the stinger with a ginsue. Then you stick the knife in your arm and keep sticken it in and pull'en and eventually you get out the stinger that caused the sting. Then to cure the sting, you stick it under the sewing machine to fix it up, and it get all better.

Our town provides many after school activities for young people. There is basket ball, base ball, football, and volleyball. But I think that it is really cheap program, and money is too much a concern for them.
